### Testimonial for Natures Call

As a registered Canadian charity, hosting a major fundraising event is a crucial element in achieving our mandate for Ewing's Sarcoma cancer research. Each year we host the *Rally for the Cure*, an annual car/aircraft rally and BBQ -- an outdoor event held at Buttonville Airport. Due to the many components involved in putting this event together, success depends entirely upon detailed planning. With large numbers of participants attending this event it is important to have clean, dependable washroom facilities.

We have used Nature's Call since our first Rally and have been extremely satisfied with the service Nature's Call has provided us -- and their staff is always such a pleasure to deal with. The Rally participants have also expressed their appreciation at having washroom facilities that are a major cut above the standard port-o-potties usually found at outdoor events. They are always impressed with the quality, cleanliness and dependability of Nature's Call trailer washrooms.

We would definitely recommend Nature's Call to anyone holding a large outdoor event.
